

TRAILER MOUNT

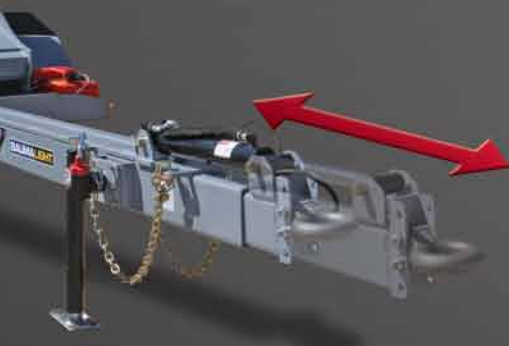

BAUMALIGHT™

Give new meaning to Pick Up Truck. Now you don't need a tractor or skidsteer to move your trees. Designed as a trailer mount for 30" and 40" Nomads the 22M combines mobility and power.

M22 MOUNT

Final positioning of the Nomad with the M22 couldn't be easier. The 3D positioning system allows you to fine tune the placement without getting in and out of your truck. Better initial positioning improves spading operation and transplant results.

FEATURES

HYDRAULIC TONGUE

The Hydraulic Tongue extension easily places the Nomad at the proper distance.

HYDRAULIC LATERAL PLACEMENT

The lateral adjustment fine tunes the positioning.

TWO STAGE VERTICAL PLACEMENT

The two-stage tilt and lift puts the Nomad firmly in contact with the ground for confident spading and lifting.

All the power for digging and lifting is provided by an electric start gas powered, hydraulic power pack.

GAS POWERED

The M22 also comes standard with all the features you need in a trailer package,

- Integrated safety chain
- Standard Pintle hitch
- Tongue Jack
- Integrated Tail Lights
- Fenders

Increase the efficiency of your tree spade operation with the Controls line of remotes from Baumalight. Available for the SS330 and ST440 these remotes allow you to operate your spade when your out of the drivers seat.
